"Working with Kate was a discovery, I thought to myself, where was she all my life!? Fast, great at what she does, resourceful, her work ethic is flawless, adapts well to any situation and pulls miracles out of her bag. Kate is extremely talented, intuitive and easy to work with. All that mixed with the fact that she is an incredible human being. I would say if you have Kate in your team, you are winning!"

AMULETHA

"Kate is an artist. She listens, she has zero ego, she is a collaborator and team player. Most of all she is an amazing human being and people just like to be around her, which is so rare to find in this industry. I just adore her." -
